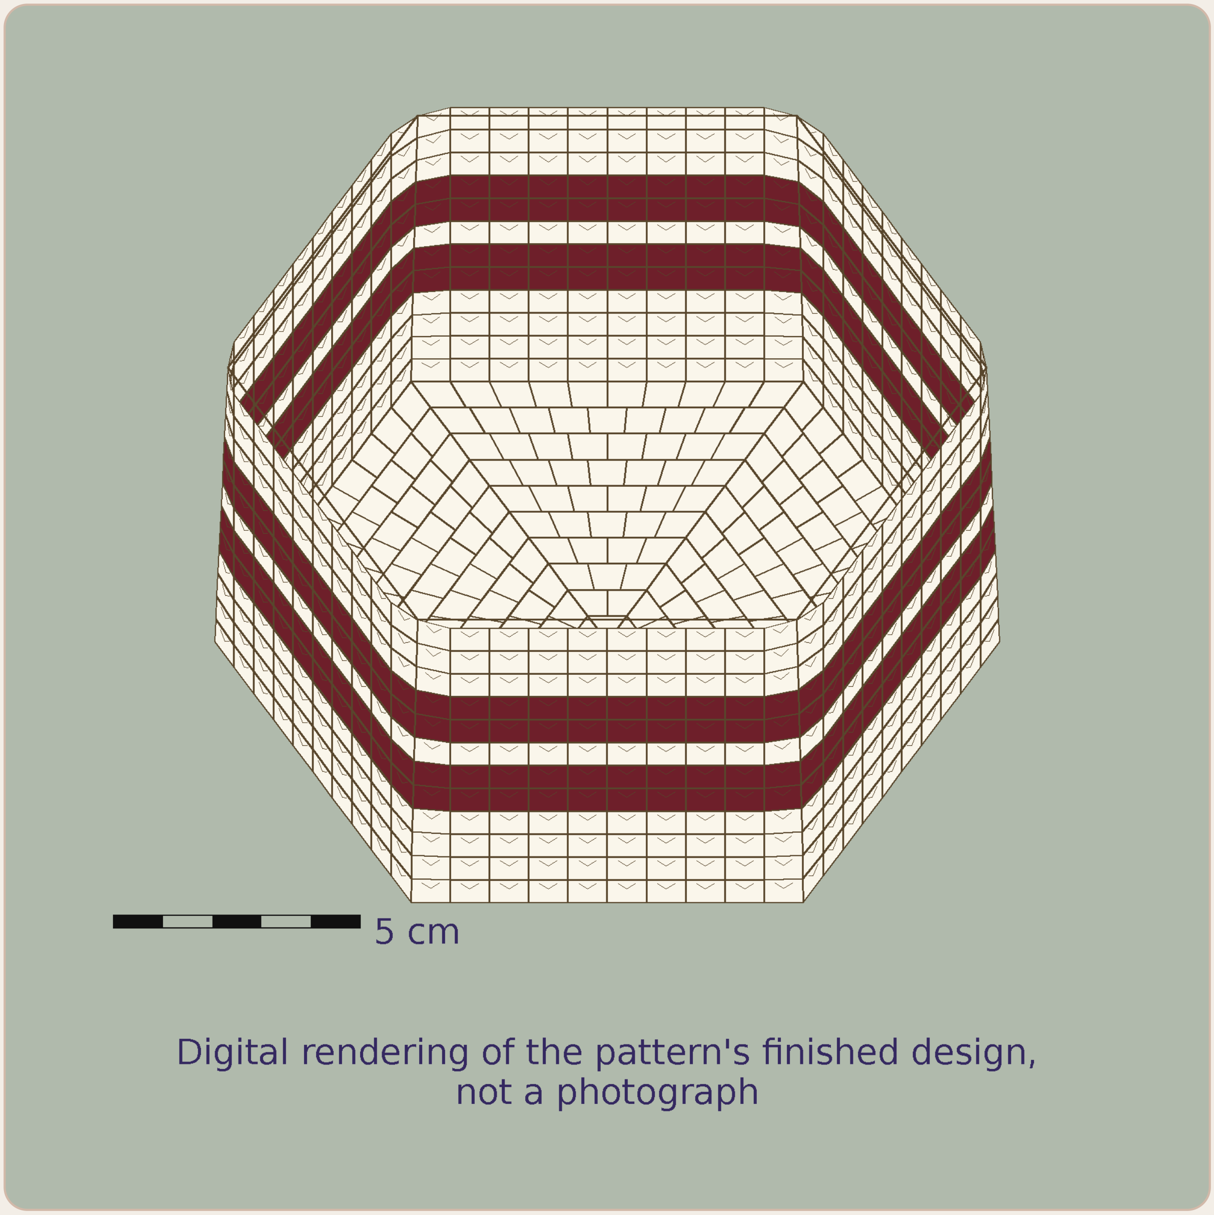
Crochet Hexagonal Bread Basket

Crochet pattern · US terms · version 1.3.0



5 cm
Digital rendering of the pattern's finished design, not a photograph

Digital rendering, drawn stitch by stitch from this pattern — not a photograph. Rim shape estimated until a sample is made.

SKILL	FINISHED SIZE	YARN	HOOK
Confident beginner	16.0 cm across the points, 8.7 cm tall	Worsted weight (medium)	5 mm

ABOUT THIS PATTERN

Overview

This pattern makes one hexagonal basket, base 16.0 cm across the points, 13.9 cm across the flats; 8.7 cm tall at the stated gauge, computed rather than measured.

It is worked in 22 joined rounds of single crochet, starting from a magic ring. Rounds 1 to 10 grow a flat base, and rounds 11 to 22 turn up at a defined edge to make the wall.

The main colour is cream, with wine in rounds 15 to 16 and 18 to 19.

It is written in US crochet terms. Every round is written out with its stitch count, and the pattern includes construction diagrams, a chart, a schematic, and tips and troubleshooting.

AT A GLANCE

DIFFICULTY
confident beginner

FINISHED SIZE
hexagon base 16.0 cm across the points, 13.9 cm across the flats; 8.7 cm tall at the stated gauge (computed, not yet measured on a worked sample)

CONSTRUCTION
joined rounds, from a magic ring

YARN
Worsted weight (medium), cotton

YARN AMOUNT
about 42-63 m in total (46-68 yd), estimated

HOOK
5 mm

GAUGE
12.5 sts x 13.8 rows = 10 cm in sc

COLOURS
cream, wine

MAKING TIME
about 2.1 hours (estimated from the stitch count, not timed)

RELEASED
2026-10-31 · version 1.3.0

How this pattern was made. This design was created with AI assistance, and every row's stitch count was checked before release. The charts in this document are drawn from the same pattern as the written instructions, so the two agree.

About the pictures. Every image of the finished piece in this document is a digital rendering of the pattern's finished design, not a photograph. Each one is drawn stitch by stitch from this pattern's own data at the stated gauge, and the construction diagrams beside the instructions are drawn the same way. These pictures draw the defined base edge the pattern makes, with the wall's corners crisp at the base and softening toward a rounded rim. Rim shape estimated until a sample is made.

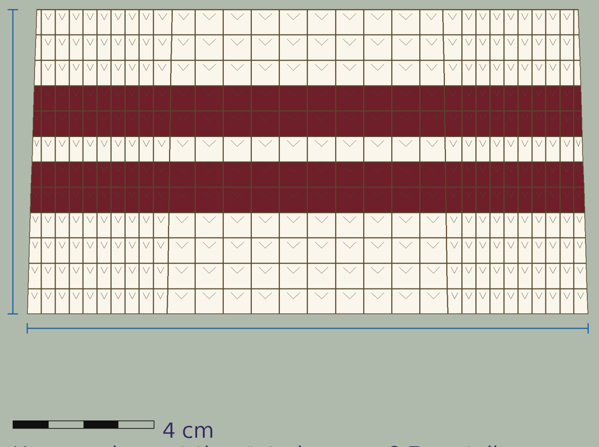
Physical testing: Unverified in this edition. Its finished size and yarn amounts are computed from the gauge, not calibrated on a worked sample, and are marked as estimates wherever they appear. The stitch counts are checked by the pattern compiler and do not depend on a sample.

CONSTRUCTION AND SCHEMATIC

How it is made

The basket is one piece, worked in joined rounds without turning. Rounds 1 to 10 increase to grow a flat base of 60 stitches; rounds 11 to 22 keep that count and turn up at a defined edge to make the wall. There are no seams to sew.

SCHEMATIC WITH FINISHED MEASUREMENTS



Hexagon base at the stated gauge, 8.7 cm tall:
16.0 cm across the points, 13.9 cm across the flats

THE BASE, FROM ABOVE

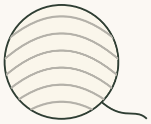
Rnds 1 to 10: a flat base of 60 stitches

16.0 cm across the points and 13.9 cm across the flats

The wall (Rnds 11 to 22) rises from its edge.

WHAT YOU NEED

Materials

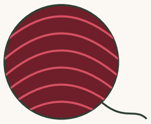


COLOUR A

Cream

worsted cotton (worsted), colourway cream

about 32-48 m (35-53 yd)



COLOUR B

Wine

worsted cotton (worsted), colourway wine

about 10-14 m (10-16 yd)

Hook and notions

HOOK

5 mm, or whatever hook gets you the gauge below

TAPESTRY NEEDLE

blunt, with an eye big enough for your yarn, for weaving in the ends

STITCH MARKER

optional, to mark the first stitch of each round

How much yarn

CREAM	about 32-48 m (35-53 yd)
WINE	about 10-14 m (10-16 yd)

These quantities are estimates with a ±20% range, not measurements. Yarn consumption genuinely varies with yarn, hook and tension, so buy a little more than the top of the range if your dye lot matters to you.

Substituting the yarn

Gauge decides this, not the name on the band. Any of these can be worked to this fabric: light (also called dk), medium (also called worsted). Swatch and change hook until your gauge matches — the gauge is what makes the finished size come out.

IF YOU USE LIGHT	about 60 m in total (1 x 100g ball); the finished piece will be lighter and more open

Those metres are this pattern's own estimate plus 15%. Buying exactly enough is how a project ends one row short in a dye lot that has gone. Changing fibre as well — cotton for acrylic, say — changes how much yarn each stitch takes by an amount that has to be measured on a swatch, not read off a table.

BEFORE YOU START

Gauge, and why it matters here

Work a swatch before you start. The finished size above is computed from the gauge above; if your gauge differs, your finished piece will differ by the same proportion. The stitch counts in this pattern are correct at any gauge — only the measurements change.

HOW TO CHECK YOUR GAUGE

1. With the 5 mm hook and the yarn you will use, work a square of sc a little over 12 cm wide and 12 cm tall.
2. Lay it flat without stretching it. Across 10 cm in the middle you are aiming for 12.5 stitches, and up 10 cm for 13.8 rows.
3. More stitches than that means your stitches are smaller than the pattern's: change to a larger hook. Fewer stitches means they are larger: change to a smaller hook. Swatch again until it matches.
4. On a piece worked in the round you can also check as you go: after round 5 it should be 30 stitches around, about 8 cm across the points, still flat.

This piece is worked in the round, and its two gauges do different jobs. Rounds 1 to 10 grow the base outward without adding height, so the 12.5 stitches to 10 cm in sc is what decides how wide the base comes out. The 13.8 rows to 10 cm is the gauge of the 12 straight rounds above it, which is where the height comes from. Check both against 'Checking your progress' below, which gives each round's measurement across and up.

Checking your progress

At these rounds the piece should measure roughly this much. If it does not, the difference is gauge, and it is easier to fix now than at round 22.

ROUND 1 OF 22	6 stitches around, about 2 cm across the points, still flat
ROUND 5 OF 22	30 stitches around, about 8 cm across the points, still flat
ROUND 11 OF 22	60 stitches around, about 16 cm across the points and about 0.7 cm tall
ROUND 16 OF 22	60 stitches around, about 16 cm across the points and 4 cm tall
ROUND 22 OF 22	60 stitches around, about 16 cm across the points and 9 cm tall

US CROCHET TERMS

Abbreviations

This pattern is written in US terms. Every abbreviation it uses is below; nothing in the instructions is left to be looked up elsewhere.

ch	chain
inc	single crochet increase
sc	single crochet
sl st	slip stitch

How to read a row

[...] x 6	work everything inside the brackets, in order, six times in a row
(60 sts)	the stitch count that row should end on. Count it: this is the number every later row depends on
st / sts	stitch / stitches
magic ring	an adjustable loop of yarn worked into and then pulled tight, so the round closes with no hole at the centre
Rnd	round — worked around the piece rather than in turned rows. How each round is started and finished is stated once, at the top of the instructions

Techniques used

Magic ring

Wrap the yarn twice around two fingers, insert the hook under both strands, draw up a loop and make 1 chain. Work the first round's stitches into the ring, over both strands and the tail, then pull the tail firmly to close the centre.

Joining a round

Insert the hook into the first stitch of the round, yarn over, and draw the loop through the stitch and the loop on the hook: that is the joining slip stitch. Then make the chain and begin the next round.

Changing colour at a join

Work the joining slip stitch with the new colour: insert the hook into the first stitch, drop the old colour and draw the new colour through. Leave the old colour resting on the wrong side until it is needed again.

Back loop only

Each stitch has two loops along its top: the front loop, nearer you, and the back loop, farther away. Insert the hook under the back loop only and work the stitch as usual. The front loop is left unworked and stays on the outside as a ridge.

Increase

Work 2 single crochets into the same stitch: one stitch in, two stitches out.

Fastening off

Cut the yarn, leaving a tail of about 15 cm, yarn over and draw the tail all the way through the loop on the hook.

STEP BY STEP

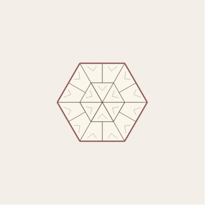
Instructions (US terms)

Version 1.3.0
Terminology: US terms
Gauge: 12.5 sts x 13.8 rows = 10cm in sc, 5.0mm hook
Materials: worsted cotton (cream); worsted cotton (wine)

Each card shows the piece after its last round: a construction diagram drawn from this pattern's stitch data, not a photograph. The rose outline is the round just worked; early rounds are shown enlarged.

Basket

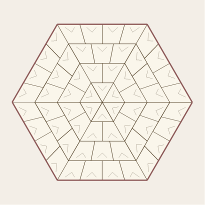
Join each round with a sl st to the first stitch, then ch 1 to begin the next round. The ch 1 does not count as a stitch.



after Rnd 2

○ **Rnd 1 (cream):** 6 sc in magic ring. (6 sts)

○ **Rnd 2 (cream):** [inc in next st] x 6. (12 sts)



after Rnd 4

- ○ **Rnd 22 (cream):** sc in next 60 sts. (60 sts)

ASSEMBLY AND FINISHING

Finishing

- Fasten off and weave in all ends on the wrong side. Thread each end through at least 5 cm of stitches, then back through a few in the opposite direction, so it cannot work loose in wear or washing.
- All four colour changes fall at the join: make the joining sl st at the end of the round before in the new colour. Leave cream attached while it rests (Rnds 15-16 and 18-19), carrying it loosely up the inside of the join, and pick it up again for Rnds 17 and 20. Leave wine attached while it rests (Rnd 17), carrying it loosely up the inside of the join, and pick it up again for Rnd 18. Cut wine after Rnd 19 and fasten it off; it is not used again. Ends to weave in: about 4.
- Do not block this piece flat. It is worked in the round and pressing it out would crease the wall: damp-finish it standing up, easing it to the stated measurements with your hands and letting it dry in its own shape, stuffed lightly with a towel if it needs help standing.
- Check the ball band before blocking with heat or water. Fibres behave differently and yours is the one in your hands.

IF SOMETHING LOOKS WRONG

Tips and troubleshooting

Count every round

Each round ends with its stitch total in brackets, from 6 sts at Rnd 1 to 60 sts at Rnd 22. Put a stitch marker in the first stitch of every round and count before you join: a round that is one stitch out is a minute to fix now and a frustration later.

If it ruffles or cups

Up to Rnd 10 the basket should lie flat. If it ruffles like a frill, it has more stitches than it needs or your stitches are loose; if it curls up into a bowl, a round is short of increases or your stitches are tight. Count the last round against its total first, then compare its size with 'Checking your progress'.

Keeping the corners straight

The 6 corners come from each round's increases sitting directly on top of the increases below. If the corners start to twist into a swirl, the start of the round has drifted: begin every round in its first stitch, where your marker is, and work the repeat exactly as written.

Turning the base into the wall

Rnd 11 is worked in the back loop only. The front loops you leave unworked make a ridge around the outside of the base, and the base folds up along that ridge into the wall, so the edge is defined rather than rounded. Every wall round keeps the base's stitch count, so the count does not make the wall flare; if it leans outward, check your tension against the gauge.

Neat colour changes

This basket changes colour 4 times, always at the join. Work the joining sl st with the new colour, and carry the colour you are resting loosely up the inside of the join: a tight carry puckers the fabric at the join, a loose one disappears.

The line of joins

Joined rounds leave a faint line where each round starts and ends. That is expected. Keep the joining sl st snug but not tight, and turn the basket so the line sits at the back.

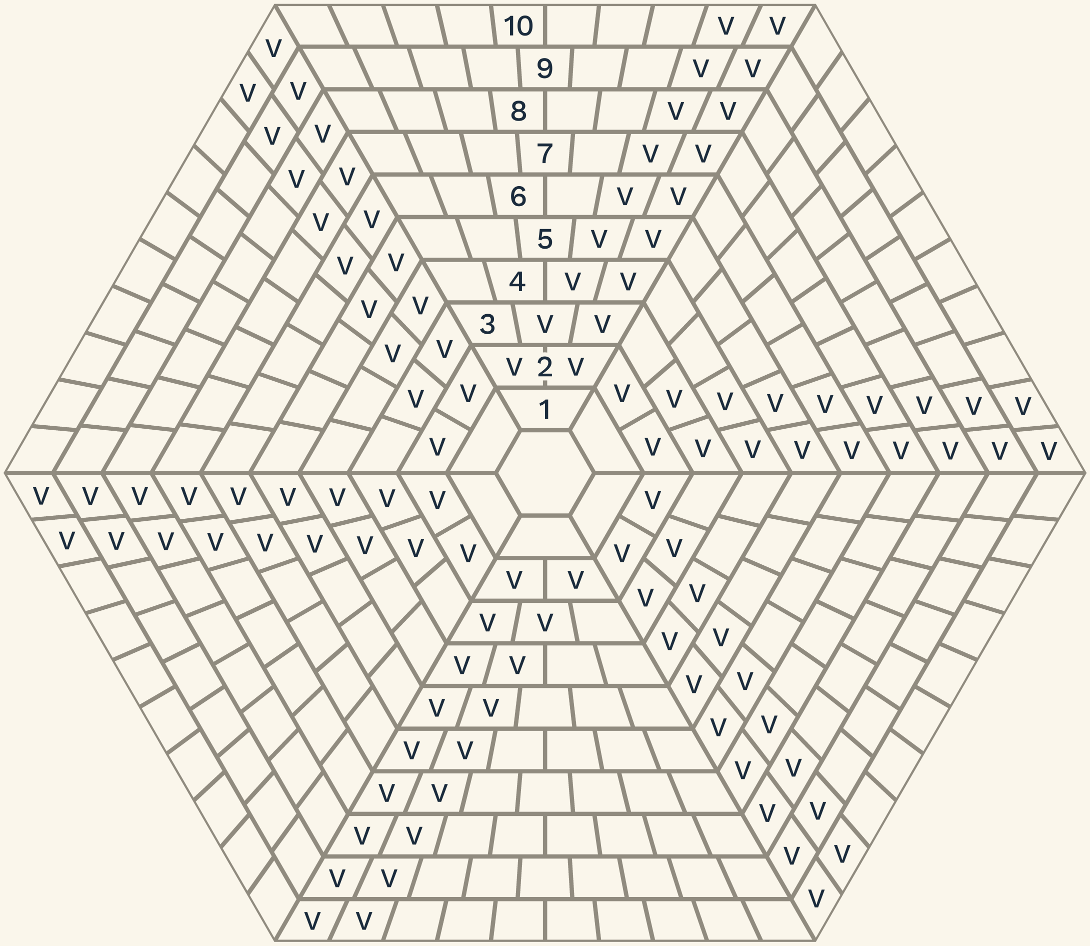
If your piece comes out the wrong size

Size comes from gauge: 12.5 sts to 10 cm in sc with the 5 mm hook. Bigger than 'Checking your progress' says means your stitches are looser than gauge — try a hook one size smaller. Smaller means tighter — try one size larger. The stitch counts never change.

CHART AND KEYS

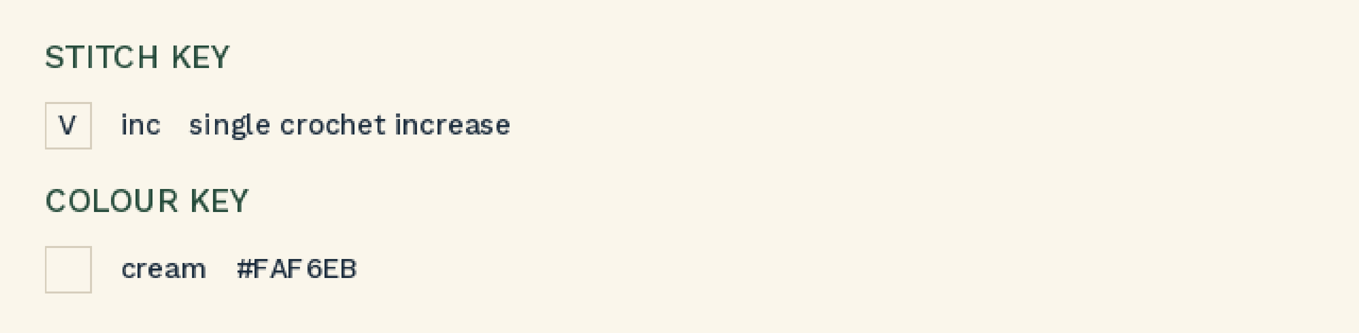
Chart

Crochet Hexagonal Bread Basket - basket



Round 1 is the centre. Every round is worked in the same direction. V marks an increase.

This piece is worked in the round, so the chart is drawn as rounds: round 1 at the centre, each ring outward one round. Count the wedges in a ring and you get the stitch count in the written line for that round, because both come from the same verified data. It shows rounds 1 to 10, which are the rounds that shape the piece. Rounds 11 to 22 are then worked straight at 60 stitches with no increases. Drawing them would add 12 identical rings and shrink every ring in this chart, so the chart stops at round 10. They are worked in cream except rounds 15-16 and 18-19 in wine, and the written instructions give the colour of every round. V marks an increase.



STITCH KEY

V inc single crochet increase

COLOUR KEY

□ cream #FAF6EB

Chart symbols

A round chart marks where the stitch count changes rather than every stitch, so these are the marks it carries. Every other stitch in the round is the plain stitch the written line names.

V	inc single crochet increase

The same key is drawn in the image above, and every stitch in it is also defined under Abbreviations, earlier in this document.

Colours

Every round this chart shows is worked in one colour, so no number on it carries a colour letter. The written instructions name the yarn for every row and round in the pattern.

cream	#FAF6EB
wine	#6E1F2A

THE FINISHED DESIGN

Gallery

About the pictures: every image of the finished piece in this document is a digital rendering of the pattern's finished design, not a photograph. Each one is drawn stitch by stitch from this pattern's own data at the stated gauge, and the construction diagrams beside the instructions are drawn the same way.

These pictures draw the defined base edge the pattern makes, with the wall's corners crisp at the base and softening toward a rounded rim. Rim shape estimated until a sample is made.

SUPPORT AND CREDITS

Terms and support

What you may do with this pattern

- for the buyer's own use, and to teach from in a class where each participant has their own copy
- finished items may be sold by individual makers and small businesses, not manufactured at scale
- the pattern file, its charts and its images may not be shared, resold, uploaded or included in another publication
- questions are answered through the shop the pattern was bought from, against the exact version that was bought
- corrections are free: a corrected pattern replaces the old file, and anyone who bought an earlier version can ask for the corrected one at any time

These are the terms Brambleloop offers; they have not yet been through legal review.

Customer support

If anything in this pattern does not add up, tell us through the shop you bought it from and we will fix the pattern itself, not just answer your question. Every report is checked against the compiler that validated this release.

What support covers: the size this pattern states, worked in medium weight yarn at the stated gauge, with the stitches, colour order and construction as written. Outside support: a different yarn weight or gauge, resizing to a size not listed, changing the stitch pattern, the construction or the number of pieces, and adding or removing shaping. We will explain how the pattern works, but we cannot check numbers this release did not validate.

About this document

How this pattern was made: this design was created with AI assistance, and every row's stitch count was checked before release. The charts in this document are drawn from the same pattern as the written instructions, so the two agree.

Charts and previews are rendered directly from the pattern file, so they show exactly what is in the document.

Physical testing: unverified in this edition. Its finished size and yarn amounts are computed from the gauge, not calibrated on a worked sample, and are marked as estimates wherever they appear. The stitch counts are checked by the pattern compiler and do not depend on a sample.

Typefaces: Cormorant Garamond, Lora and Work Sans, used under the SIL Open Font License 1.1.
