

Brambleloop tester record -- Crochet Hexagonal Bread Basket

market-basket-small@1.2.0 content 1ddde587f537388b scope: full_make

your tester reference	
grams used, colour A (cream)	
grams used, colour B (wine)	
ball band: grams per ball	
ball band: metres per ball	
hook used (mm)	
swatch: sts and rounds per 10 cm	
base across the points (cm)	
base across the flats (cm)	
wall height (cm)	
total hours	
followed exactly? yes/no	
anything unclear or wrong (round numbers)	

Protocol

1. Before starting: weigh each full ball and record the ball band (grams and metres)
2. Work a 10 x 10 cm sc swatch first; record stitches and rounds per 10 cm and the hook
3. Make the basket exactly as written in the test PDF; note every place you had to guess, re-read or rip back, with th
4. Weigh what is left of each ball; grams used = start minus end, per colour
5. Measure the finished base across the points and across the flats, and the wall height, in cm, without stretching
6. Record total hours and whether you followed the instructions exactly
7. Photograph the finished basket on a plain surface (top and side) in daylight
8. Return the record sheet and photos; the operator enters them (POST /api/physical-test and /api/physical-photo)

No review, rating or favourite is requested. Your fee does not depend on your opinion.
