

First Christmas Fir and Star Relief Stocking

Crochet pattern - US terms - version 0.2.0

At a glance

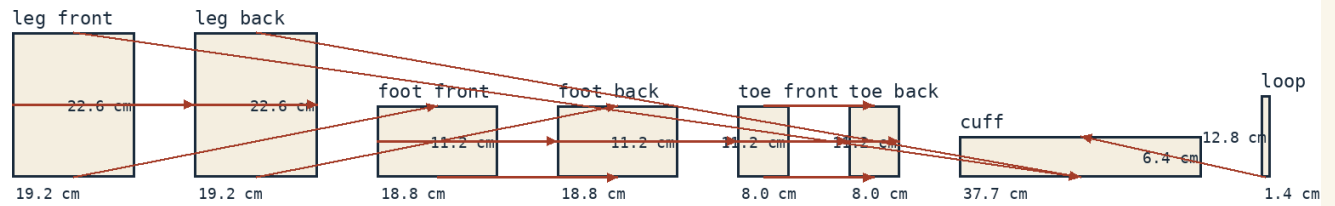

FINISHED SIZE	19 x 23 cm at the stated gauge (computed, not yet measured on a worked sample)
DIFFICULTY	confident beginner
CONSTRUCTION	flat rows
GAUGE	12.5 sts x 13.8 rows = 10 cm in sc
HOOK	5 mm
COLOURS	cream, forest
RELEASED	2026-10-07

How this pattern was made: the design was developed with AI assistance and every stitch count in it was verified by an automated pattern compiler before release, row by row. The charts in this document are generated directly from the same verified data as the written instructions, so the two cannot disagree.

Schematic

Every piece as worked, to scale, with the joins that make it one object. Measurements are computed from the stated gauge.

Materials

FOREST	worsted acrylic (worsted)
CREAM	worsted acrylic (worsted)
HOOK	5 mm, or whatever hook gets you the gauge below
TAPESTRY NEEDLE	blunt, with an eye big enough for your yarn, for weaving in the ends
BLOCKING PINS AND A SURFACE	for pinning the piece out damp to the finished measurements

How much yarn

CREAM	about 14-21 m (15-23 yd)
FOREST	about 14-21 m (15-23 yd)

These quantities are estimates with a +/-20% range, not measurements. Yarn consumption genuinely varies with yarn, hook and tension, so buy a little more than the top of the range if your dye lot matters to you.

Gauge, and why it matters here

Work a swatch before you start. The finished size above is computed from the gauge above; if your gauge differs, your finished piece will differ by the same proportion. The stitch counts in this pattern are correct at any gauge -- only the measurements change.

SWATCH ROW GAUGE	13.8 rows = 10 cm in sc
THIS FABRIC	about 11 rows = 10 cm

Those two numbers are both right and they are not the same number. The swatch gauge is measured over plain sc; this pattern is worked in taller stitches as well, so its rows stack up faster. Check your stitches across against the swatch gauge, and check your rows against the measurements in 'Checking your progress' below, which are the fabric's own.

Checking your progress

At these rows the piece should measure roughly this much. If it does not, the difference is gauge, and it is easier to fix now than at row 176.

ROW 1 OF 176	24 stitches across, about 1 cm of fabric made
ROW 44 OF 176	24 stitches across, about 6 cm of fabric made
ROW 88 OF 176	14 stitches across, about 11 cm of fabric made
ROW 132 OF 176	8 stitches across, about 17 cm of fabric made
ROW 176 OF 176	16 stitches across, about 23 cm of fabric made

Substituting the yarn

Gauge decides this, not the name on the band. Any of these can be worked to this fabric: light (also called dk), medium (also called worsted). Swatch and change hook until your gauge matches -- the gauge is what makes the finished size come out.

IF YOU USE LIGHT about 40 m in total (1-1 x 100g balls); the finished piece will be lighter and more open

Those metres are this pattern's own estimate plus 15%. Buying exactly enough is how a project ends one row short in a dye lot that has gone. Changing fibre as well -- cotton for acrylic, say -- changes how much yarn each stitch takes by an amount that has to be measured on a swatch, not read off a table.

Abbreviations

This pattern is written in US terms. Every abbreviation it uses is below; nothing in the instructions is left to be looked up elsewhere.

ch	chain
dc	double crochet
sc	single crochet

How to read a row

[...] x 4	work everything inside the brackets, in order, four times in a row
(120 sts)	the stitch count that row should end on. Count it: this is the number every later row depends on
st / sts	stitch / stitches
turn	turn the work to start the next row from the other end
Foundation	the starting chain the first row is worked into

How it goes together

This is made as 8 pieces, worked in the order below: leg front (flat rows); leg back (flat rows); foot front (flat rows); foot back (flat rows); toe front (flat rows); toe back (flat rows); cuff (flat rows); loop (flat rows).

Join 1: whipstitch the leg front's bottom edge to the foot front's top edge, at row 1 of the foot front.

Join 2: whipstitch the foot front's right edge to the toe front's left edge, at row 1 of the toe front.

Join 3: whipstitch the leg back's bottom edge to the foot back's top edge, at row 1 of the foot back.

Join 4: whipstitch the foot back's right edge to the toe back's left edge, at row 1 of the toe back.

Join 5: whipstitch the leg front's left edge to the leg back's left edge, at row 1 of the leg back.

Join 6: whipstitch the leg front's right edge to the leg back's right edge, at row 1 of the leg back.

Join 7: whipstitch the foot front's bottom edge to the foot back's bottom edge, at row 1 of the foot back.

Join 8: whipstitch the foot front's left edge to the foot back's left edge, at row 1 of the foot back.

Join 9: whipstitch the toe front's bottom edge to the toe back's bottom edge, at row 1 of the toe back.

Join 10: whipstitch the toe front's top edge to the toe back's top edge, at row 1 of the toe back.

Join 11: whipstitch the toe front's right edge to the toe back's right edge, at row 11 of the toe back.

Join 12: whipstitch the leg front's top edge to the cuff's bottom edge, at row 1 of the cuff.

Join 13: whipstitch the leg back's top edge to the cuff's bottom edge, at row 27 of the cuff.

Join 14: whipstitch the cuff's left edge to its own right edge.

Join 15: whipstitch the loop's top edge to its own bottom edge.

Join 16: whipstitch the loop's bottom edge to the cuff's top edge, at row 1 of the cuff.

Assembly

Step 1: Whipstitch the leg_front to the foot_front across rows 1-26. Sew the front leg's bottom edge along the front foot's top edge.

Step 2: Whipstitch the foot_front to the toe_front across row 1. Sew the front foot's last row to the front toe's foundation chain.

Step 3: Whipstitch the leg_back to the foot_back across rows 1-26, and the second one mirrored on the far side.

Sew the back leg's bottom edge along the back foot's top edge.

Step 4: Whipstitch the foot_back to the toe_back across row 1, and the second one mirrored on the far side. Sew the back foot's last row to the back toe's foundation chain.

Step 5: Whipstitch the leg_front to the leg_back across rows 1-24. Place front on back, wrong sides together; close the back (heel) edge.

Step 6: Whipstitch the leg_front to the leg_back across rows 1-24. Close the front edge of the leg.

Step 7: Whipstitch the foot_front to the foot_back across rows 1-26. Close the sole under the heel.

Step 8: Whipstitch the foot_front to the foot_back across row 1. Close the heel end (the foundation chains).

Step 9: Whipstitch the toe_front to the toe_back across rows 1-11. Close the sole under the toe.

Step 10: Whipstitch the toe_front to the toe_back across rows 1-11. Close the instep.

Step 11: Whipstitch the toe_front to the toe_back across row 11. Close the toe end (the last rows).

Step 12: Whipstitch the leg_front to the cuff across rows 1-26. Sew cuff rows 1-26 to the front leg's top edge.

Step 13: Whipstitch the leg_back to the cuff across rows 27-52. Sew cuff rows 27-52 to the back leg's top edge.

Step 14: Whipstitch the two edges of the cuff together. Close the cuff's two ends at the back seam.

Step 15: Whipstitch the two edges of the loop together. Sew the loop's two ends together (its last stitches to its first), making a closed loop 6.4 cm long when laid flat.

Step 16: Whipstitch the loop to the cuff across rows 1-2. Lay the loop flat with its seam at the bottom and sew the seam across cuff rows 1-2 on the cuff's top edge, at the back seam.

Finishing

Fasten off and weave in all ends on the wrong side. Thread each end through at least 5 cm of stitches, then back through a few in the opposite direction, so it cannot work loose in wear or washing.

This pattern uses 2 colours, so there is an end to secure at every join and every change.

leg_front: Colour changes: 22 of the 23 start at the edge opposite the resting colour, so it cannot be carried: cut it at the end of its row and rejoin it at the start of its next row, leaving a 10 cm tail. Ends to weave in: about 48.

leg_back: Colour changes: 22 of the 23 start at the edge opposite the resting colour, so it cannot be carried: cut it at the end of its row and rejoin it at the start of its next row, leaving a 10 cm tail. Ends to weave in: about 48.

Block the finished piece to 19 x 23 cm: pin it out damp to those measurements, easing rather than stretching, and leave it to dry flat. Those are the dimensions this pattern's gauge produces, so blocking to them is what makes the stated size the size you get.

Check the ball band before blocking with heat or water. Fibres behave differently and yours is the one in your hands.

Chart

Full chart: 24 columns by 24 rows, split into 4 tiles. Columns are numbered left to right. Complete each entire row across its tiles: odd rows right to left; even rows left to right. Then advance one row. Do not work a tile as a separate piece. Every border and stitch is included once.

Terms and support

What you may do with this pattern

- for the buyer's own use, and to teach from in a class where each participant has their own copy
- finished items may be sold by individual makers and small businesses, not manufactured at scale
- the pattern file, its charts and its photographs may not be shared, resold, uploaded or included in another publication
- questions are answered through the shop the pattern was bought from, against the exact version that was bought
- corrections and revisions are free forever, and buyers are told when the version they own changes

These are the terms Brambleloop offers; they have not yet been through legal review.

If anything in this pattern does not add up, tell us through the shop you bought it from and we will fix the pattern itself, not just answer your question. Every report is checked against the compiler that validated this release.

What support covers: the size this pattern states, worked in the yarn weight in Materials at the stated gauge, with the stitches, colour order and construction as written. Outside support: a different yarn weight or gauge, resizing to a size not listed, changing the stitch pattern, the construction or the number of pieces, and adding or removing shaping. We will explain how the pattern works, but we cannot check numbers this release did not validate.
