GAUGE	12.5 sts x 13.8 rows = 10 cm in sc

RELEASED	2026-10-07

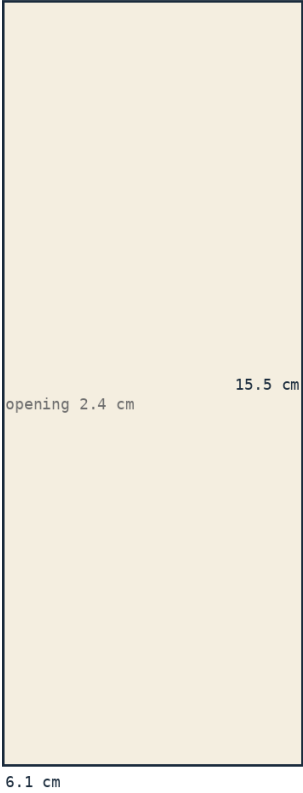

How this pattern was made: the design was developed with AI assistance and every stitch count in it was verified by an automated pattern compiler before release, row by row. The charts in this document are generated directly from the same verified data as the written instructions, so the two cannot disagree.

Schematic

Every piece as worked, to scale, with the joins that make it one object. Measurements are computed from the stated gauge.

Schematic: Snowfall Mitten Advent Garland

mitten (make 24)

Materials

FOREST	worsted acrylic (worsted), colourway forest
CREAM	worsted acrylic (worsted), colourway cream
HOOK	5 mm, or whatever hook gets you the gauge below
TAPESTRY NEEDLE	blunt, with an eye big enough for your yarn, for weaving in the ends
STITCH HOLDER OR	for the stitches set aside and worked later
WASTE YARN	

How much yarn

CREAM	about 286-428 m (312-469 yd)
FOREST	about 247-370 m (270-405 yd)

These quantities are estimates with a +/-20% range, not measurements. Yarn consumption genuinely varies with yarn, hook and tension, so buy a little more than the top of the range if your dye lot matters to you.

Gauge, and why it matters here

Work a swatch before you start. The finished size above is computed from the gauge above; if your gauge differs, your finished piece will differ by the same proportion. The stitch counts in this pattern are correct at any gauge -- only the measurements change.

Checking your progress

At these rows the piece should measure roughly this much. If it does not, the difference is gauge, and it is easier to fix now than at row 37.

ROW 1 OF 37	6 stitches across, about 0 cm of fabric made
ROW 9 OF 37	24 stitches across, about 4 cm of fabric made
ROW 18 OF 37	24 stitches across, about 8 cm of fabric made
ROW 27 OF 37	6 stitches across, about 11 cm of fabric made
ROW 37 OF 37	405 stitches across, about 16 cm of fabric made

Substituting the yarn

Gauge decides this, not the name on the band. Any of these can be worked to this fabric: light (also called dk), medium (also called worsted). Swatch and change hook until your gauge matches -- the gauge is what makes the finished size come out.

IF YOU USE LIGHT about 765 m in total (3-4 x 100g balls); the finished piece will be lighter and more open

Those metres are this pattern's own estimate plus 15%. Buying exactly enough is how a project ends one row short in a dye lot that has gone. Changing fibre as well -- cotton for acrylic, say -- changes how much yarn each stitch takes by an amount that has to be measured on a swatch, not read off a table.

Abbreviations

This pattern is written in US terms. Every abbreviation it uses is below; nothing in the instructions is left to be looked up elsewhere.

ch	chain
dc	double crochet
dec	single crochet decrease
inc	single crochet increase
sc	single crochet
sk	skip
slst	slip stitch

How to read a row

[...] x 4	work everything inside the brackets, in order, four times in a row
(120 sts)	the stitch count that row should end on. Count it: this is the number every later row depends on
st / sts	stitch / stitches
turn	turn the work to start the next row from the other end
magic ring	an adjustable loop of yarn worked into and then pulled tight, so the round closes with no hole at the centre
Foundation	the starting chain the first row is worked into
Rnd	round -- worked around the piece rather than in turned rows. How each round is started and finished is stated once, at the top of the instructions

How it goes together

This is made as 73 pieces, worked in the order below: 24 x mitten (joined rounds); 24 x thumb (joined rounds); 24 x loop tab (flat rows, continued from the loop tab); cord (flat rows).

The mitten sets 4 stitches aside at row 24 (loop tab); they are picked up again later.

Join 1: whipstitch the loop tab's top edge to its own bottom edge.

Foundation: ch 405.

Row 1 (forest): Ch 1, turn. slst in next 405 sts. (405 sts)

Assembly

Step 1: Whipstitch the two edges of the loop_tab together. Fold each tab in half to the inside of its cuff and sew its last row to its first, making a loop. Repeat for all 24.

Finishing

Fasten off and weave in all ends on the wrong side. Thread each end through at least 5 cm of stitches, then back through a few in the opposite direction, so it cannot work loose in wear or washing.

This pattern uses 2 colours, so there is an end to secure at every join and every change.

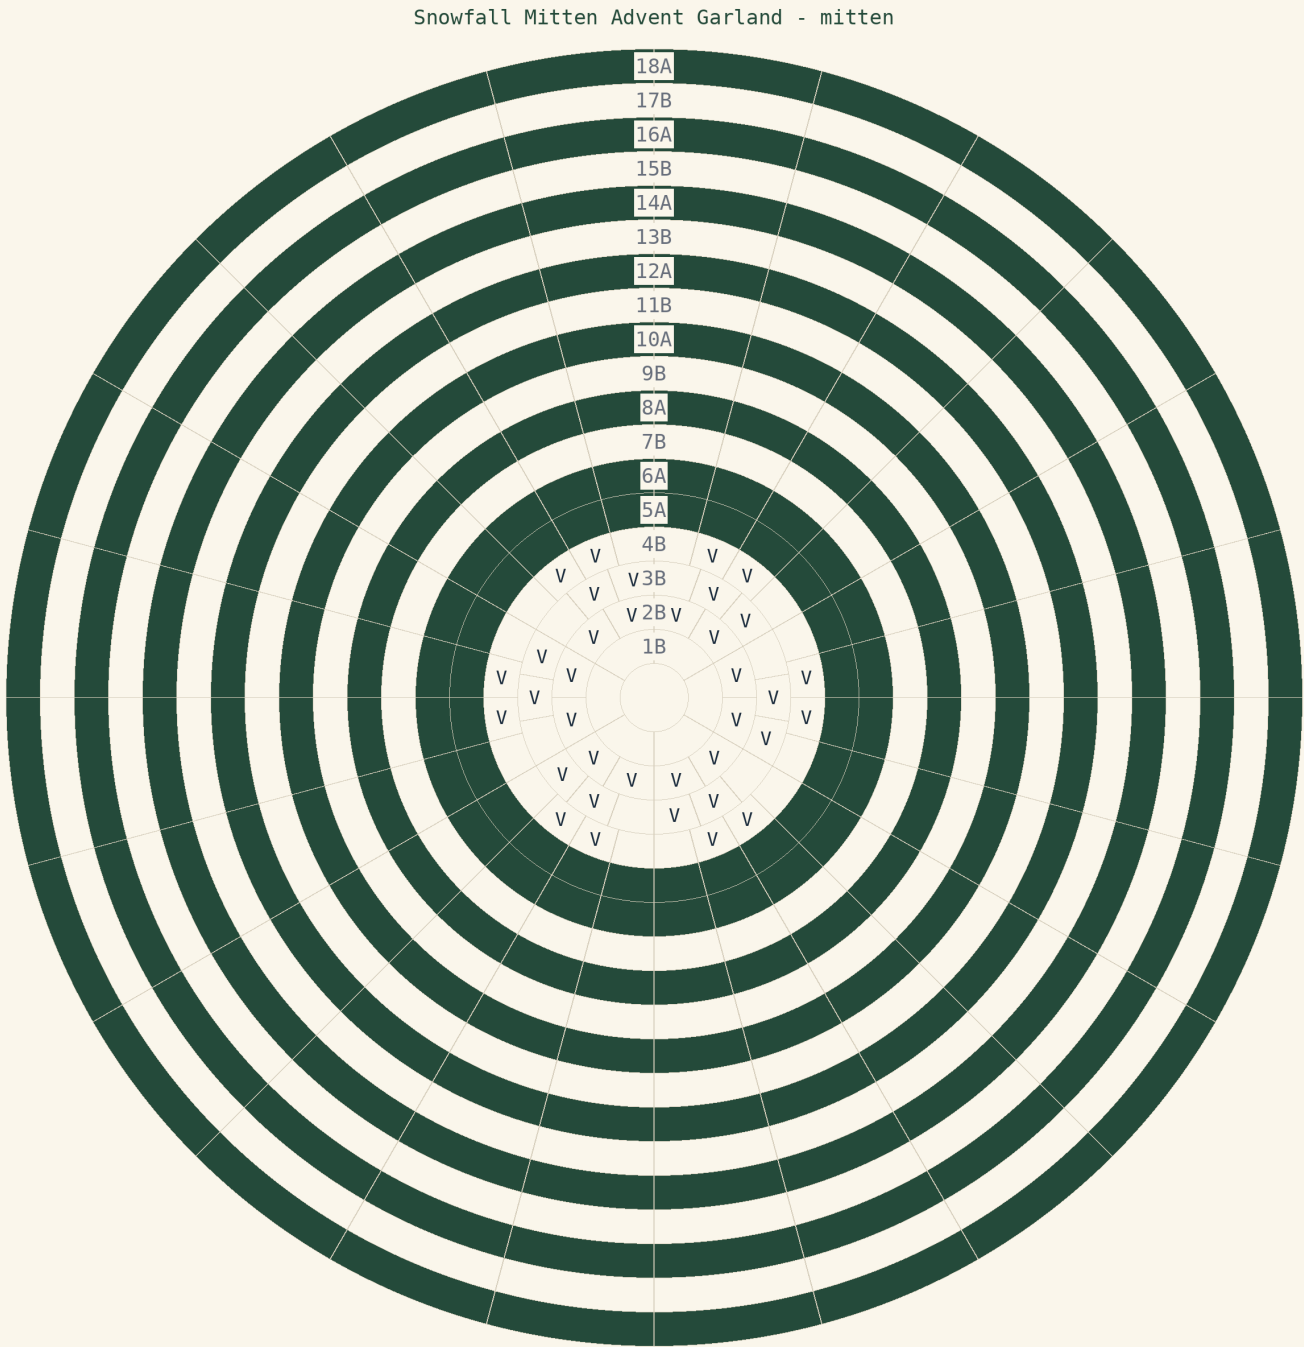

mitten: Colour changes: all 14 changes fall at the join, where the colour not in use is resting, so carry it loosely up the inside of the join rather than cutting it. Ends to weave in: about 4.

Do not block this piece flat. It is worked in the round and pressing it out would crease the wall: damp-finish it standing up, easing it to the stated measurements with your hands and letting it dry in its own shape, stuffed lightly with a towel if it needs help standing.

Check the ball band before blocking with heat or water. Fibres behave differently and yours is the one in your hands.

Chart

This piece is worked in the round, so the chart is drawn as rounds: round 1 at the centre, each ring outward one round. Count the wedges in a ring and you get the stitch count in the written line for that round, because both come from the same verified data. It shows rounds 1 to 18, which are the rounds that shape the piece. Rounds 19 to 24 are then worked straight at 24 stitches with no increases. Drawing them would add 6 identical rings and shrink every ring in this chart, so the chart stops at round 18. They are worked in forest except rounds 21-24 in cream, and the written instructions give the colour of every round. V marks an increase.

Round 1 is the centre. Every round is worked in the same direction. V marks an increase. The letter after a round number is its yarn, as in the colour key.

STITCH KEY

o	ch	chain	(UK chain)
F	dc	double crochet	(UK treble crochet)
V	inc	single crochet increase	(UK double crochet increase)
x	sc	single crochet	(UK double crochet)
.	slst	slip stitch	(UK slip stitch)

COLOUR KEY

B	B	cream	#FAF6EB
A	A	forest	#244A3A

Each round number on the chart carries its yarn's letter, where that whole round is worked in one colour, so the chart can be read without relying on colour.

Chart symbols

A round chart marks where the stitch count changes rather than every stitch, so these are the marks it carries. Every other stitch in the round is the plain stitch the written line names.

V inc single crochet increase

The same key is drawn in the image above, and every stitch in it is also defined under Abbreviations, earlier in this document.

Colour key

Each round number on the chart carries its yarn's letter, where that whole round is worked in one colour, so the chart can be read without relying on colour.

- for the buyer's own use, and to teach from in a class where each participant has their own copy
- finished items may be sold by individual makers and small businesses, not manufactured at scale
- the pattern file, its charts and its photographs may not be shared, resold, uploaded or included in another publication

These are the terms Brambleloop offers; they have not yet been through legal review.

If anything in this pattern does not add up, tell us through the shop you bought it from and we will fix the pattern itself, not just answer your question. Every report is checked against the compiler that validated this release.

What support covers: the size this pattern states, worked in medium weight yarn at the stated gauge, with the stitches, colour order and construction as written. Outside support: a different yarn weight or gauge, resizing to a size not listed, changing the stitch pattern, the construction or the number of pieces, and adding or removing shaping. We will explain how the pattern works, but we cannot check numbers this release did not validate.
