Crochet pattern - UK terms - version 1.1.0

At a glance

FINISHED SIZE	79 x 97 cm at the stated gauge
DIFFICULTY	confident beginner
CONSTRUCTION	flat rows
GAUGE	12.5 sts x 13.8 rows = 10 cm in dc
HOOK	5 mm
COLOURS	cream, ink
RELEASED	2026-09-28

How this pattern was made: the design was developed with AI assistance and every stitch count in it was verified by an automated pattern compiler before release, row by row. The charts in this document are generated directly from the same verified data as the written instructions, so the two cannot disagree.

Materials

CREAM	worsted acrylic (worsted)
INK	worsted acrylic (worsted)
HOOK	5 mm, or whatever hook gets you the gauge below
TAPESTRY NEEDLE	blunt, with an eye big enough for your yarn, for weaving in the ends
BLOCKING PINS AND A SURFACE	for pinning the piece out damp to the finished measurements

How much yarn

CREAM	about 181-272 m (198-297 yd)
INK	about 160-240 m (175-263 yd)

These quantities are estimates with a +/-20% range, not measurements. Yarn consumption genuinely varies with yarn, hook and tension, so buy a little more than the top of the range if your dye lot matters to you.

Gauge, and why it matters here

Work a swatch before you start. The finished size above is computed from the gauge above; if your gauge differs, your finished piece will differ by the same proportion. The stitch counts in this pattern are correct at any gauge -- only the measurements change.

SWATCH ROW GAUGE	13.8 rows = 10 cm in dc
THIS FABRIC	about 7 rows = 10 cm

Those two numbers are both right and they are not the same number. The swatch gauge is measured over plain dc; this pattern is worked in taller stitches as well, so its rows stack up faster. Check your stitches across against the swatch gauge, and check your rows against the measurements in 'Checking your progress' below, which are the fabric's own.

Checking your progress

At these rows the piece should measure roughly this much. If it does not, the difference is gauge, and it is easier to fix now than at row 70.

ROW 1 OF 70	99 stitches across, about 1 cm of fabric made
ROW 17 OF 70	99 stitches across, about 22 cm of fabric made
ROW 35 OF 70	99 stitches across, about 49 cm of fabric made
ROW 52 OF 70	99 stitches across, about 73 cm of fabric made
ROW 70 OF 70	99 stitches across, about 97 cm of fabric made

Substituting the yarn

Gauge decides this, not the name on the band. Any of these can be worked to this fabric: light (also called dk), medium (also called worsted). Swatch and change hook until your gauge matches -- the gauge is what makes the finished size come out.

IF YOU USE LIGHT about 491 m in total (2-3 x 100g balls); the finished piece will be lighter and more open

Those metres are this pattern's own estimate plus 15%. Buying exactly enough is how a project ends one row short in a dye lot that has gone. Changing fibre as well -- cotton for acrylic, say -- changes how much yarn each stitch takes by an amount that has to be measured on a swatch, not read off a table.

Abbreviations

This pattern is written in UK terms. Every abbreviation it uses is below; nothing in the instructions is left to be looked up elsewhere.

ch	chain
dc	double crochet
tr	treble crochet

How to read a row

[...] x 4	work everything inside the brackets, in order, four times in a row
(120 sts)	the stitch count that row should end on. Count it: this is the number every later row depends on
st / sts	stitch / stitches
turn	turn the work to start the next row from the other end
Foundation	the starting chain the first row is worked into

Finishing

Fasten off and weave in all ends on the wrong side. Thread each end through at least 5 cm of stitches, then back through a few in the opposite direction, so it cannot work loose in wear or washing.

This pattern uses 2 colours, so there is an end to secure at every join and every change.

Block the finished piece to 79 x 97 cm: pin it out damp to those measurements, easing rather than stretching, and leave it to dry flat. Those are the dimensions this pattern's gauge produces, so blocking to them is what makes the

stated size the size you get.

Check the ball band before blocking with heat or water. Fibres behave differently and yours is the one in your hands.

Chart

Full chart: 99 columns by 70 rows, split into 20 tiles. Columns are numbered left to right. Complete each entire row across its tiles: odd rows right to left; even rows left to right. Then advance one row. Do not work a tile as a separate piece. Every border and stitch is included once.

Safety notes for a children's item

This pattern is written for a child, which changes what the pattern has to tell you. Each note below says where it comes from, so you can check it rather than take our word for it.

Who this is for

This pattern makes an item intended for children under 3 years, finishing at 79 x 97 cm at the stated gauge. The age band is stated here rather than left to be read off a photograph, because it is the fact every safety note below depends on, and because the person buying this is usually choosing for one particular child.

Fibre and washing

This pattern is written for acrylic yarn, in 2 colours (cream, ink). For a child's item washability is hygiene rather than convenience: it will be mouthed, dribbled on and washed far more often than an adult's version of the same object, so choose a yarn you can machine wash, and wash the finished item before it is used. What governs your own item is the yarn you actually bought -- follow its ball band for temperature, drying and pressing. We state the fibre this pattern was written for; we do not state a fibre content for your finished item, because the yarn in your hands is what decides that.

About these safety notes

None of this is legal advice. It is Brambleloop Studio's conservative reading of public safety guidance -- CPSC, the Code of Federal Regulations, Health Canada, the Toys Regulations and the American Academy of Pediatrics -- compiled on 2026-09-24, with each note's source named above so the reading can be re-checked rather than argued about. Rules change and ours is not the only reading; if you are selling finished items, check what applies where you sell.

Not for an unsupervised sleep space

This is for supervised, awake use, and it does not belong in an unsupervised sleep space before 12 months. The American Academy of Pediatrics' 2022 recommendations keep soft objects and loose bedding -- blankets, comforters, pillows, soft toys -- out of the infant sleep area. Keep this out of the cot, and out of reach of a baby who is in one. We know where a soft crocheted thing in a nursery is most likely to end up, so we say so here rather than leave it to be assumed.

If you sell what you make

What this licence permits is set out in the licence terms; this is about what follows if you do it. Sell a finished children's item and you become its manufacturer. In the United States that is CPSIA: testing by a CPSC-accepted third-party laboratory, a Children's Product Certificate, and a tracking label on the product itself. In Canada it is the Canada Consumer Product Safety Act and, for a toy, the Toys Regulations SOR/2011-17. We are not your lawyer and this is a pointer rather than advice -- and we are not entitled to let you assume none of it exists.

Terms and support

What you may do with this pattern

- for the buyer's own use, and to teach from in a class where each participant has their own copy
- finished items may be sold by individual makers and small businesses, not manufactured at scale
- the pattern file, its charts and its photographs may not be shared, resold, uploaded or included in another publication
- questions are answered through the shop the pattern was bought from, against the exact version that was bought
- corrections and revisions are free forever, and buyers are told when the version they own changes

These are the terms Brambleloop offers; they have not yet been through legal review.

If anything in this pattern does not add up, tell us through the shop you bought it from and we will fix the pattern itself, not just answer your question. Every report is checked against the compiler that validated this release.
