

Chevron Pencil Roll

Crochet pattern - US terms - version 0.1.0

At a glance

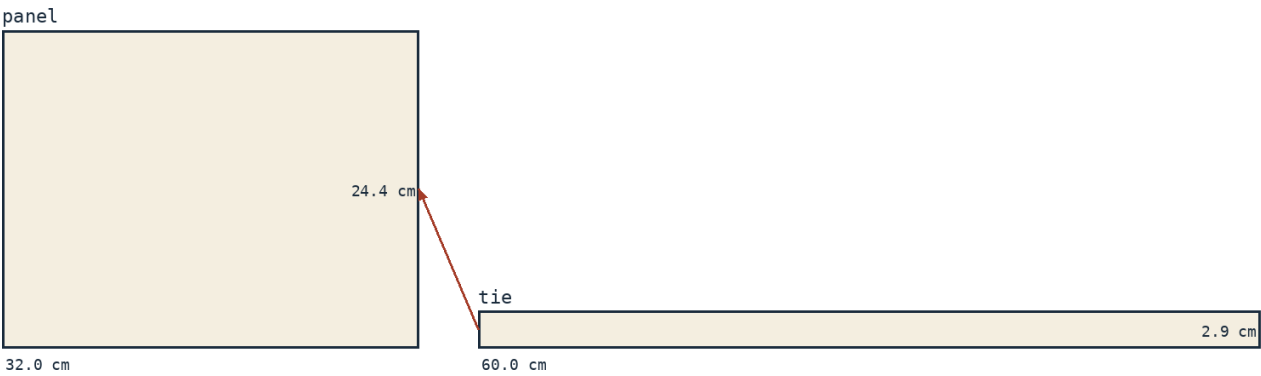

FINISHED SIZE	32 x 24 cm at the stated gauge (computed, not yet measured on a worked sample)
DIFFICULTY	confident beginner
CONSTRUCTION	flat rows
GAUGE	12.5 sts x 13.8 rows = 10 cm in sc
HOOK	5 mm
COLOURS	gold, wine
RELEASED	2026-10-07

How this pattern was made: the design was developed with AI assistance and every stitch count in it was verified by an automated pattern compiler before release, row by row. The charts in this document are generated directly from the same verified data as the written instructions, so the two cannot disagree.

Schematic

Every piece as worked, to scale, with the joins that make it one object. Measurements are computed from the stated gauge.

Schematic: Chevron Pencil Roll

join tie.left to panel.right: 3.0 cm (sound)
close panel: left edge to left edge
close panel: right edge to right edge

Materials

WINE	worsted cotton (worsted)
GOLD	worsted cotton (worsted)
HOOK	5 mm, or whatever hook gets you the gauge below
TAPESTRY NEEDLE	blunt, with an eye big enough for your yarn, for weaving in the ends
BLOCKING PINS AND A SURFACE	for pinning the piece out damp to the finished measurements

How much yarn

GOLD	about 25-37 m (27-41 yd)
WINE	about 24-36 m (26-39 yd)

These quantities are estimates with a +/-20% range, not measurements. Yarn consumption genuinely varies with yarn, hook and tension, so buy a little more than the top of the range if your dye lot matters to you.

Gauge, and why it matters here

Work a swatch before you start. The finished size above is computed from the gauge above; if your gauge differs, your finished piece will differ by the same proportion. The stitch counts in this pattern are correct at any gauge -- only the measurements change.

SWATCH ROW GAUGE	13.8 rows = 10 cm in sc
THIS FABRIC	about 10 rows = 10 cm

Those two numbers are both right and they are not the same number. The swatch gauge is measured over plain sc; this pattern is worked in taller stitches as well, so its rows stack up faster. Check your stitches across against the swatch gauge, and check your rows against the measurements in 'Checking your progress' below, which are the fabric's own.

Checking your progress

At these rows the piece should measure roughly this much. If it does not, the difference is gauge, and it is easier to fix now than at row 28.

ROW 1 OF 28	40 stitches across, about 1 cm of fabric made
ROW 7 OF 28	40 stitches across, about 7 cm of fabric made
ROW 14 OF 28	40 stitches across, about 14 cm of fabric made
ROW 21 OF 28	40 stitches across, about 21 cm of fabric made
ROW 28 OF 28	75 stitches across, about 24 cm of fabric made

Substituting the yarn

Gauge decides this, not the name on the band. Any of these can be worked to this fabric: light (also called dk), medium (also called worsted). Swatch and change hook until your gauge matches -- the gauge is what makes the finished size come out.

IF YOU USE LIGHT about 70 m in total (1-1 x 100g balls); the finished piece will be lighter and more open

Those metres are this pattern's own estimate plus 15%. Buying exactly enough is how a project ends one row short in a dye lot that has gone. Changing fibre as well -- cotton for acrylic, say -- changes how much yarn each stitch takes by an amount that has to be measured on a swatch, not read off a table.

Abbreviations

This pattern is written in US terms. Every abbreviation it uses is below; nothing in the instructions is left to be looked up elsewhere.

ch	chain
dc	double crochet
sc	single crochet

How to read a row

[...] x 4	work everything inside the brackets, in order, four times in a row
(120 sts)	the stitch count that row should end on. Count it: this is the number every later row depends on
st / sts	stitch / stitches
turn	turn the work to start the next row from the other end
Foundation	the starting chain the first row is worked into

How it goes together

This is made as 2 pieces, worked in the order below: panel (flat rows); tie (flat rows).

Join 1: whipstitch the panel's left edge to its own left edge, at row 1 of the panel.

Join 2: whipstitch the panel's right edge to its own right edge, at row 1 of the panel.

Join 3: whipstitch the tie's left edge to the panel's right edge, at row 12 of the panel.

Repeat rows 9-16 once more, ending with row 24. (2 repeats of the 8-row block in total.)

tie

Foundation: ch 75.

Row 1 (wine): Ch 1, turn. sc in next 75 sts. (75 sts)

Row 2 (wine): Ch 1, turn. sc in next 75 sts. (75 sts)

Row 3 (wine): Ch 1, turn. sc in next 75 sts. (75 sts)

Row 4 (wine): Ch 1, turn. sc in next 75 sts. (75 sts)

Assembly

Step 1: Whipstitch the two edges of the panel together across rows 1-11. Fold the first 11 rows up onto the panel; close the left side.

Step 2: Whipstitch the two edges of the panel together across rows 1-11. Close the right side of the pocket, then stitch a slot line through both layers every 3 cm.

Step 3: Whipstitch the tie to the panel across rows 12-14. Sew one end of the tie to the right edge just above the pocket.

Finishing

Fasten off and weave in all ends on the wrong side. Thread each end through at least 5 cm of stitches, then back

through a few in the opposite direction, so it cannot work loose in wear or washing.

This pattern uses 2 colours, so there is an end to secure at every join and every change.

panel: Colour changes: 22 of the 23 start at the edge opposite the resting colour, so it cannot be carried: cut it at the end of its row and rejoin it at the start of its next row, leaving a 10 cm tail. Ends to weave in: about 48.

Block the finished piece to 32 x 24 cm: pin it out damp to those measurements, easing rather than stretching, and leave it to dry flat. Those are the dimensions this pattern's gauge produces, so blocking to them is what makes the stated size the size you get.

Check the ball band before blocking with heat or water. Fibres behave differently and yours is the one in your hands.

Chart

This chart shows 8 of the 40 stitches across: the pattern repeats every 8 stitches, so work the chart 5 times across the row. It shows one repeat, 24 rows tall. Work it once up the piece. The full piece is 40 stitches by 24 rows. The chart is generated from the same verified data as the written instructions, so the two cannot disagree. Read odd rows right to left and even rows left to right.

Terms and support

What you may do with this pattern

- for the buyer's own use, and to teach from in a class where each participant has their own copy
- finished items may be sold by individual makers and small businesses, not manufactured at scale
- the pattern file, its charts and its photographs may not be shared, resold, uploaded or included in another publication
- questions are answered through the shop the pattern was bought from, against the exact version that was bought
- corrections and revisions are free forever, and buyers are told when the version they own changes

These are the terms Brambleloop offers; they have not yet been through legal review.

If anything in this pattern does not add up, tell us through the shop you bought it from and we will fix the pattern itself, not just answer your question. Every report is checked against the compiler that validated this release.
