Hexagon Coaster Set

Crochet pattern · UK terms · version 1.2.0

Makes 4 coasters

Digital rendering of the pattern's finished design, not a photograph

Digital rendering of the finished design, drawn stitch by stitch from this pattern — not a photograph.

SKILL
Confident beginner

FINISHED SIZE
9.7 cm across the points, 8.4 cm across the flats

YARN
DK weight (light)

HOOK
5 mm

© 2026 Brambleloop Studio · all rights reserved · hexagon-coaster-set@1.2.0

ABOUT THIS PATTERN

Overview

This pattern makes four hexagonal coasters, each 9.7 cm across the points, 8.4 cm across the flats at the stated gauge, computed rather than measured.

Each is worked in 7 joined rounds of double crochet, starting from a magic ring, with the increases stacked so that they build 6 corners.

The main colour is cream, with wine in round 6.

It is written in UK crochet terms. Every round is written out with its stitch count, and the pattern includes construction diagrams, a chart, a schematic, and tips and troubleshooting.

AT A GLANCE

DIFFICULTY
confident beginner

FINISHED SIZE
hexagon, 9.7 cm across the points, 8.4 cm across the flats at the stated gauge (computed, not yet measured on a worked sample)

PIECES
4 coasters

CONSTRUCTION
joined rounds, from a magic ring

YARN
DK weight (light), cotton

YARN AMOUNT
about 23-35 m in total (25-38 yd), estimated

HOOK
5 mm

GAUGE
14.5 sts x 16.0 rows = 10 cm in dc

COLOURS
cream, wine

MAKING TIME
about 3.5 hours for the set (estimated from the stitch count, not timed)

RELEASED
2026-10-27 · version 1.2.0

How this pattern was made. This design was created with AI assistance, and every row's stitch count was checked before release. The charts in this document are drawn from the same pattern as the written instructions, so the two agree.

About the pictures. Every image of the finished piece in this document is a digital rendering of the pattern's finished design, not a photograph. Each one is drawn stitch by stitch from this pattern's own data at the stated gauge, and the construction diagrams beside the instructions are drawn the same way.

Physical testing: Unverified in this edition. Its finished size and yarn amounts are computed from the gauge, not calibrated on a worked sample, and are marked as estimates wherever they appear. The stitch counts are checked by the pattern compiler and do not depend on a sample.

CONSTRUCTION AND SCHEMATIC

How it is made

Each coaster is one piece, worked outward from the centre in joined rounds without turning, growing to 42 stitches at Rnd 7. There are no seams to sew.

SCHEMATIC WITH FINISHED MEASUREMENTS

Finished size at the stated gauge (hexagon):
9.7 cm across the points, 8.4 cm across the flats
Digital rendering of the pattern's finished design, not a photograph

FINISHED MEASUREMENTS

ACROSS THE POINTS
9.7 cm

ACROSS THE FLATS
8.4 cm

STITCHES IN THE LAST ROUND
42

ROUNDS
7

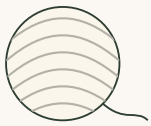

Computed from the pattern's stitches at the stated gauge; not measured on a worked sample.

The schematic is a digital rendering drawn from the pattern's data, not a photograph. The scale bar is in centimetres.

WHAT YOU NEED

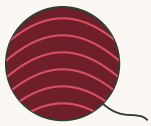

Materials

COLOUR A

Cream

dk cotton (dk), colourway cream
about 18-27 m (20-30 yd) for all 4

COLOUR B

Wine

dk cotton (dk), colourway wine
about 5-7 m (5-8 yd) for all 4

Hook and notions

HOOK
5 mm, or whatever hook gets you the gauge below

TAPESTRY NEEDLE
blunt, with an eye big enough for your yarn, for weaving in the ends

BLOCKING PINS AND A SURFACE
for pinning the piece out damp to the finished measurements

STITCH MARKER
optional, to mark the first stitch of each round

How much yarn

CREAM	about 18-27 m (20-30 yd) for all 4 coasters; about 4.5-6.8 m for each one
WINE	about 5-7 m (5-8 yd) for all 4 coasters; about 1.2-1.9 m for each one

These quantities are estimates with a ±20% range, not measurements. Yarn consumption genuinely varies with yarn, hook and tension, so buy a little more than the top of the range if your dye lot matters to you.

Substituting the yarn

Gauge decides this, not the name on the band. Any of these can be worked to this fabric: light (also called dk). Swatch and change hook until your gauge matches — the gauge is what makes the finished size come out.

Those metres are this pattern's own estimate plus 15%. Buying exactly enough is how a project ends one row short in a dye lot that has gone. Changing fibre as well — cotton for acrylic, say — changes how much yarn each stitch takes by an amount that has to be measured on a swatch, not read off a table.

BEFORE YOU START

Gauge, and why it matters here

Work a swatch before you start. The finished size above is computed from the gauge above; if your gauge differs, your finished piece will differ by the same proportion. The stitch counts in this pattern are correct at any gauge — only the measurements change.

HOW TO CHECK YOUR GAUGE

1. With the 5 mm hook and the yarn you will use, work a square of dc a little over 12 cm wide and 12 cm tall.
2. Lay it flat without stretching it. Across 10 cm in the middle you are aiming for 14.5 stitches, and up 10 cm for 16 rows.
3. More stitches than that means your stitches are smaller than the pattern's: change to a larger hook. Fewer stitches means they are larger: change to a smaller hook. Swatch again until it matches.
4. On a piece worked in the round you can also check as you go: after round 3 it should be 18 stitches around, about 4 cm across the points, still flat.

This piece is worked in the round and every round grows it outward rather than upward, so there is no row gauge to check it against: the 14.5 stitches to 10 cm in dc is what sets how wide it comes out. Check the measurement across against 'Checking your progress' below.

Checking your progress

At these rounds the piece should measure roughly this much. If it does not, the difference is gauge, and it is easier to fix now than at round 7.

ROUND 1 OF 7	6 stitches around, about 1 cm across the points, still flat
ROUND 3 OF 7	18 stitches around, about 4 cm across the points, still flat
ROUND 5 OF 7	30 stitches around, about 7 cm across the points, still flat
ROUND 7 OF 7	42 stitches around, about 10 cm across the points, still flat

UK CROCHET TERMS

Abbreviations

This pattern is written in UK terms. Every abbreviation it uses is below; nothing in the instructions is left to be looked up elsewhere.

ch	chain
dc	double crochet
dc inc	double crochet increase
sl st	slip stitch

How to read a row

[…] x 4	work everything inside the brackets, in order, four times in a row
(120 sts)	the stitch count that row should end on. Count it: this is the number every later row depends on
st / sts	stitch / stitches
magic ring	an adjustable loop of yarn worked into and then pulled tight, so the round closes with no hole at the centre
Rnd	round — worked around the piece rather than in turned rows. How each round is started and finished is stated once, at the top of the instructions

Techniques used

Magic ring
Wrap the yarn twice around two fingers, insert the hook under both strands, draw up a loop and make 1 chain. Work the first round's stitches into the ring, over both strands and the tail, then pull the tail firmly to close the centre.

Joining a round
Insert the hook into the first stitch of the round, yarn over, and draw the loop through the stitch and the loop on the hook: that is the joining slip stitch. Then make the chain and begin the next round.

Changing colour at a join
Work the joining slip stitch with the new colour: insert the hook into the first stitch, drop the old colour and draw the new colour through. Leave the old colour resting on the wrong side until it is needed again.

Increase
Work 2 double crochets into the same stitch: one stitch in, two stitches out.

Fastening off
Cut the yarn, leaving a tail of about 15 cm, yarn over and draw the tail all the way through the loop on the hook.

STEP BY STEP

Instructions (UK terms)

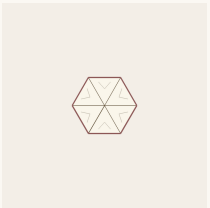

Version 1.2.0
Gauge: 14.5 sts x 16.0 rows = 10cm in dc, 5.0mm hook
Materials: dk cotton (cream); dk cotton (wine)

Terminology: UK terms

Each card shows the piece after its last round: a construction diagram drawn from this pattern's stitch data, not a photograph. The rose outline is the round just worked; early rounds are shown enlarged.

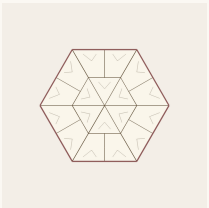

Coaster (make 4)

Join each round with a sl st to the first stitch, then ch 1 to begin the next round.

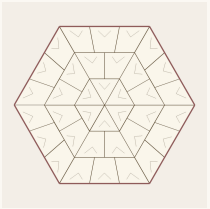

after Rnd 1

○ **Rnd 1 (cream):** 6 dc in magic ring. (6 sts)

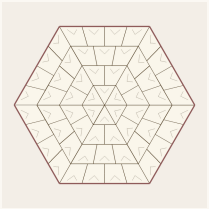

after Rnd 2

○ **Rnd 2 (cream):** [dc inc in next st] x 6. (12 sts)

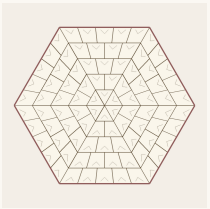

after Rnd 3

○ **Rnd 3 (cream):** [dc in next st, dc inc in next st] x 6. (18 sts)

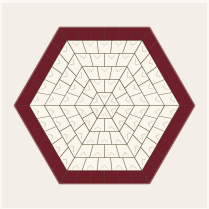

after Rnd 4

○ **Rnd 4 (cream):** [dc in next 2 sts, dc inc in next st] x 6. (24 sts)

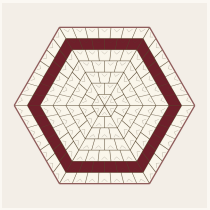

after Rnd 5

○ **Rnd 5 (cream):** [dc in next 3 sts, dc inc in next st] x 6. (30 sts)

after Rnd 6

● **Rnd 6 (wine):** [dc in next 4 sts, dc inc in next st] x 6. (36 sts)

after Rnd 7

○ **Rnd 7 (cream):** [dc in next 5 sts, dc inc in next st] x 6. (42 sts)

ASSEMBLY AND FINISHING

Finishing

- Fasten off and weave in all ends on the wrong side. Thread each end through at least 5 cm of stitches, then back through a few in the opposite direction, so it cannot work loose in wear or washing.
- This pattern uses 2 colours, so there is an end to secure at every join and every change.
- Colour changes: all 2 changes fall at the join, where the colour not in use is resting, so carry it loosely up the inside of the join rather than cutting it. Ends to weave in: about 4.
- Block each piece to 9.7 cm across the points and 8.4 cm across the flats, keeping the 6 corners where the stacked increases put them: pin it out damp, easing rather than stretching, and leave it to dry flat. Those are the dimensions this pattern's gauge produces.
- Check the ball band before blocking with heat or water. Fibres behave differently and yours is the one in your hands.

IF SOMETHING LOOKS WRONG

Tips and troubleshooting

Count every round

Each round ends with its stitch total in brackets, from 6 sts at Rnd 1 to 42 sts at Rnd 7. Put a stitch marker in the first stitch of every round and count before you join: a round that is one stitch out is a minute to fix now and a frustration later.

If it ruffles or cups

Up to Rnd 7 the coaster should lie flat. If it ruffles like a frill, it has more stitches than it needs or your stitches are loose; if it curls up into a bowl, a round is short of increases or your stitches are tight. Count the last round against its total first, then compare its size with 'Checking your progress'.

Keeping the corners straight

The 6 corners come from each round's increases sitting directly on top of the increases below. If the corners start to twist into a swirl, the start of the round has drifted: begin every round in its first stitch, where your marker is, and work the repeat exactly as written.

Neat colour changes

This coaster changes colour twice, always at the join. Work the joining sl st with the new colour, and carry the colour you are resting loosely up the inside: a tight carry puckers the fabric at the join, a loose one disappears.

© 2026 Brambleloop Studio · all rights reserved · hexagon-coaster-set@1.2.0

The line of joins

Joined rounds leave a faint line where each round starts and ends. That is expected. Keep the joining sl st snug but not tight, and if you want it hidden, keep the line on the side that will face down or inward.

If your piece comes out the wrong size

Size comes from gauge: 14.5 sts to 10 cm in dc with the 5 mm hook. Bigger than 'Checking your progress' says means your stitches are looser than gauge — try a hook one size smaller. Smaller means tighter — try one size larger. The stitch counts never change.

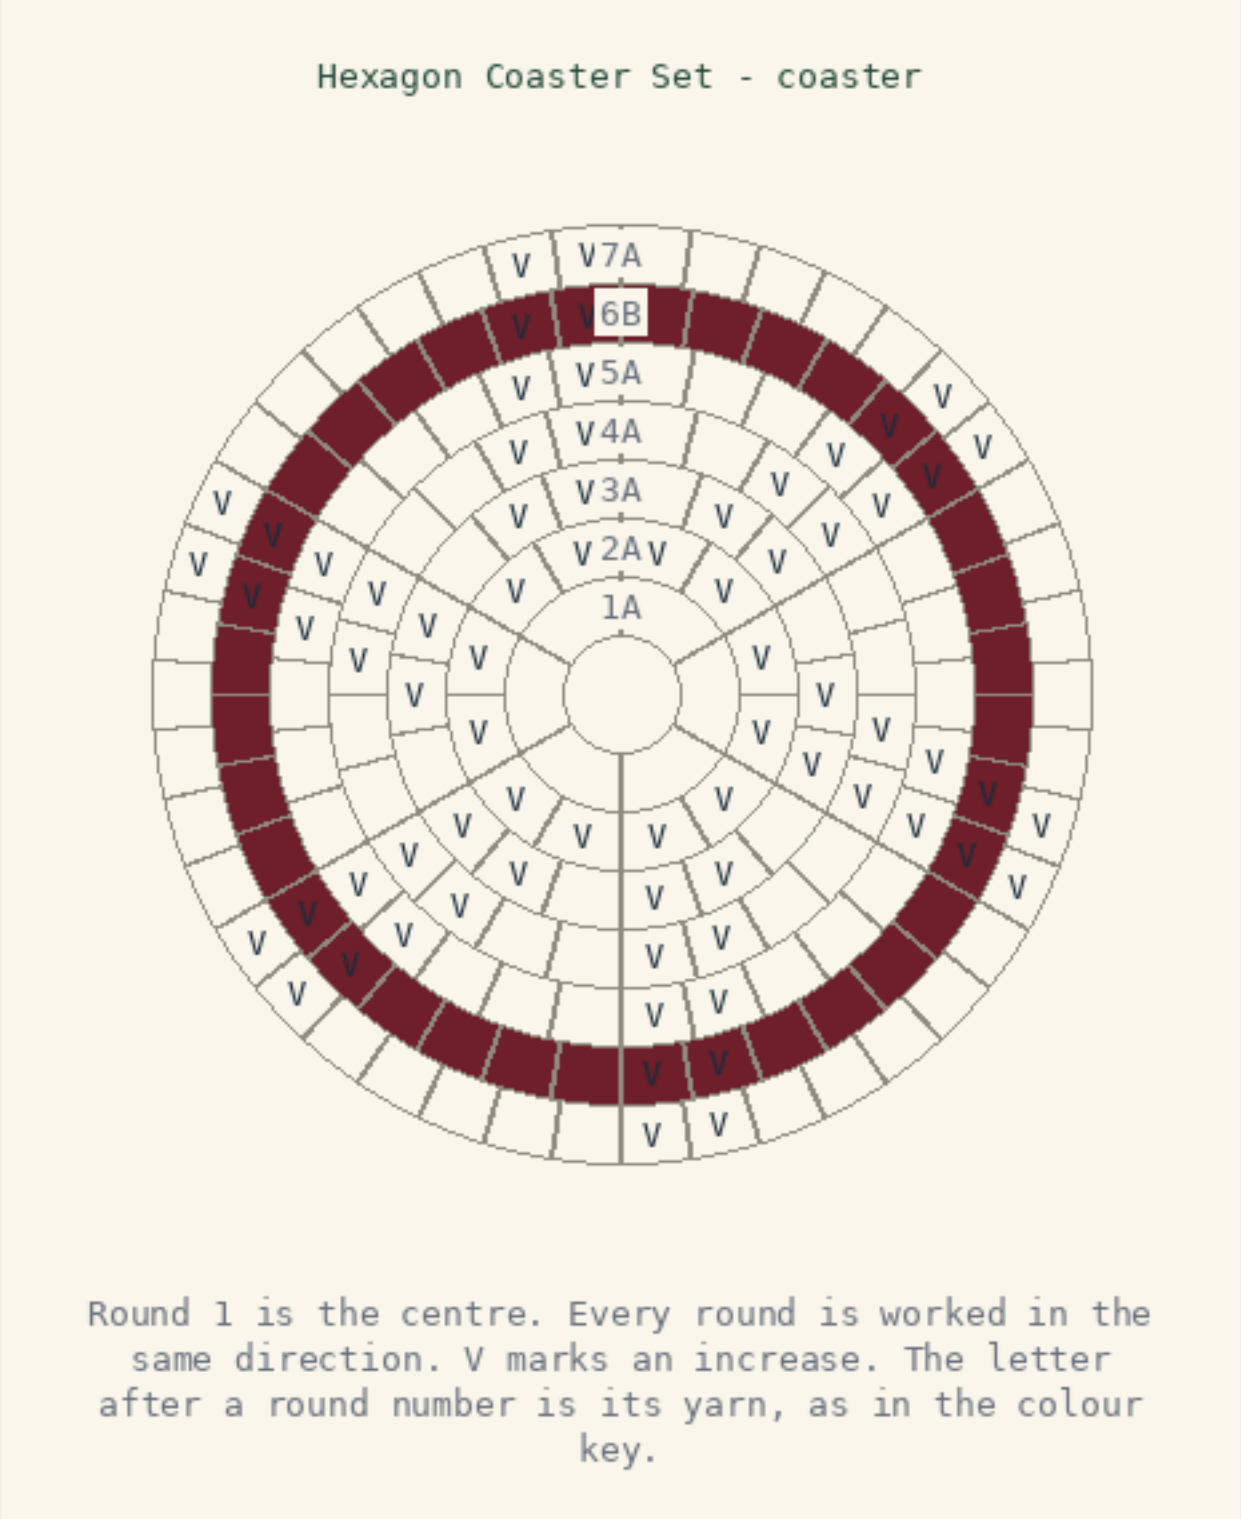

Making a matching set

This pattern makes 4 coasters. Work them all from the same balls, with the same hook, and if you can in one or two sittings, so your tension — and so the size — matches across the set. The yarn amounts under Materials are for all 4.

© 2026 Brambleloop Studio · all rights reserved · hexagon-coaster-set@1.2.0

CHART AND KEYS

Chart

Round 1 is the centre. Every round is worked in the same direction. V marks an increase. The letter after a round number is its yarn, as in the colour key.

© 2026 Brambleloop Studio · all rights reserved · hexagon-coaster-set@1.2.0

This piece is worked in the round, so the chart is drawn as rounds: round 1 at the centre, each ring outward one round. Count the wedges in a ring and you get the stitch count in the written line for that round, because both come from the same verified data. V marks an increase.

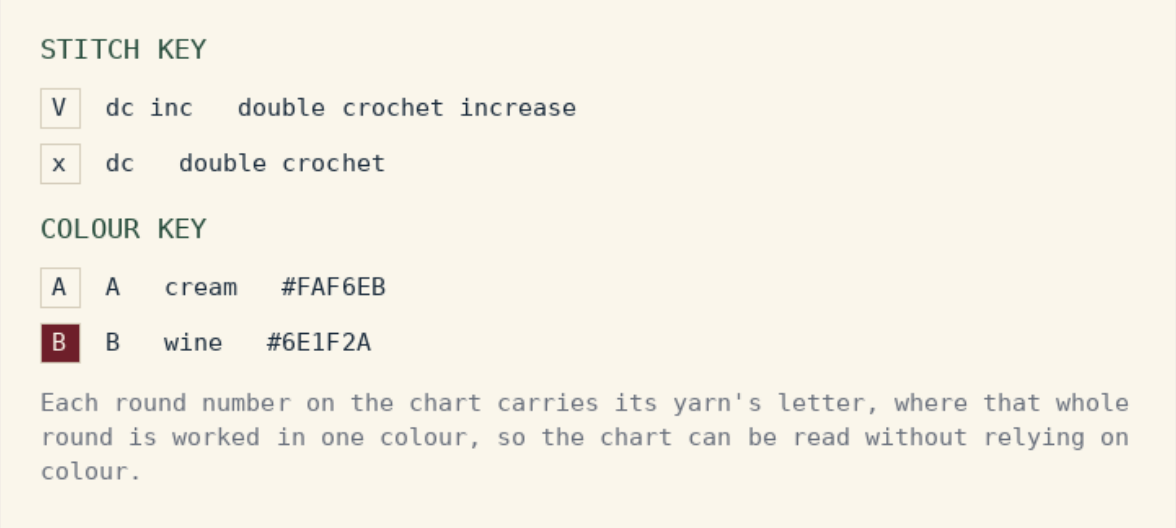

Chart symbols

A round chart marks where the stitch count changes rather than every stitch, so these are the marks it carries. Every other stitch in the round is the plain stitch the written line names.

V	dc inc double crochet increase

The same key is drawn in the image above, and every stitch in it is also defined under Abbreviations, earlier in this document.

Colour key

Each round number on the chart carries its yarn's letter, where that whole round is worked in one colour, so the chart can be read without relying on colour.

A	cream #FAF6EB
B	wine #6E1F2A

SUPPORT AND CREDITS

Terms and support

What you may do with this pattern

- for the buyer's own use, and to teach from in a class where each participant has their own copy
- finished items may be sold by individual makers and small businesses, not manufactured at scale
- the pattern file, its charts and its images may not be shared, resold, uploaded or included in another publication
- questions are answered through the shop the pattern was bought from, against the exact version that was bought
- corrections are free: a corrected pattern replaces the old file, and anyone who bought an earlier version can ask for the corrected one at any time

These are the terms Brambleloop offers; they have not yet been through legal review.

Customer support

If anything in this pattern does not add up, tell us through the shop you bought it from and we will fix the pattern itself, not just answer your question. Every report is checked against the compiler that validated this release.

What support covers: the size this pattern states, worked in light weight yarn at the stated gauge, with the stitches, colour order and construction as written. Outside support: a different yarn weight or gauge, resizing to a size not listed, changing the stitch pattern, the construction or the number of pieces, and adding or removing shaping. We will explain how the pattern works, but we cannot check numbers this release did not validate.

About this document

How this pattern was made: this design was created with AI assistance, and every row's stitch count was checked before release. The charts in this document are drawn from the same pattern as the written instructions, so the two agree.

Charts and previews are rendered directly from the pattern file, so they show exactly what is in the document.

Physical testing: unverified in this edition. Its finished size and yarn amounts are computed from the gauge, not calibrated on a worked sample, and are marked as estimates wherever they appear. The stitch counts are checked by the pattern compiler and do not depend on a sample.

Typefaces: Cormorant Garamond, Lora and Work Sans, used under the SIL Open Font License 1.1.
